

STOP

Is it a risk, malpractice
or wrong-doing?

THINK

If you don't speak up,
our patient care could suffer

SPEAK UP

Save a patient's life and improve
the services we provide

“As a nurse, I know how hard speaking up can be but it is the only way we can maintain patient's safety. Don't wait for proof or think someone else will do it. If you have a concern, raise it. I will support you at every step and ensure that your voice is heard at the senior level.”

- Ade Dosunmu, Freedom To Speak Up Guardian at ELFT

If you have a concern or any questions call 07867 140620
