

JOB DESCRIPTION

JOB TITLE:	SENIOR TRANSFORMATION AND DEPLOYMENT SYSTEMS ADMINISTRATION SPECIALIST	
BAND:	7	
DEPARTMENT:	SYSTEMS & DEVELOPMENT	
DIRECTORATE:	DIGITAL	
REPORTING TO:	SENIOR SYSTEMS MANAGER	
ACCOUNTABLE TO:	ASSOCIATE DIRECTOR – DIGITAL OPERATIONS	

JOB SUMMARY

The Senior Transformation and Deployment Systems Administration Specialist is a key member of the Systems Team and will act as a senior lead providing transformation support and expertise to ensure services realise the maximum benefits from using a system

This role will lead and deliver transformation projects (and smaller initiatives) within the Systems Team, as designated by the Senior Systems Manager. This will include organising and leading workshops, process mapping, providing deployment support (floor walking) and ensuring that along side the Senior Systems Training Manager, localised training resources are produced. The role, will also be responsible for supporting and coordinating the successful delivery of new system functionality/developments to Trust users.

The postholder will work in close collaboration with the Senior Systems Manager, Senior Systems Training Specialist, RiO System Administration team, and liaise with key service stakeholders.

The teams could consist of:

- System suppliers
- Key project stakeholders
- Technical resources
- Clinician and non-clinical staff
- Partner providers
- People Participation
- Project staff responsible for the implementation of key ITIL processes such as Knowledge Management and Change and Service Asset and Configuration.

KEY RESPONSIBILITIES

- Act as the overall owner of the specific transformation projects (or smaller initiatives) including understanding requirements, process analysis and process improvement Key areas of focus:
 - ➤ Documenting user/service requirements in a manner that the business, service stakeholders and technical stakeholders will be able to understand.
 - > Documenting business process using industry standard methodology e.g.

Page **1** of **9**

process flow, user journey etc.

- Using the RACI approach to manage stakeholder expectations.
- Conducting Gap Analysis.
- Developing new projects and service transformation activities including analysing and reviewing business processes, workshops, process mapping, benefits tracking and realisation, Standard Operating Procedures, training programmes and materials
- Engaging clinicians and administrative staff in the development of specification of system configuration and reporting to meet service needs and clinical pathways
- Representing the clinical systems projects at steering groups
- Co-ordinating post implementation review and lessons learnt
- Implementation planning, coordination and management of clinical systems projects
- Work closely with the, Senior Systems Manager and other systems team managers to ensure all new transformation projects are scheduled appropriately and have the appropriate resources assigned.
- Ensure effective engagement and communication with all relevant stakeholders both internal (such as clinical and nonclinical) and external (such as people participation, partner providers and suppliers)
- Responsible for the definition of work packages needed to deliver a project and ensure that these are identified at the planning stage so they resources can be scheduled for work requirements.
- Responsible for ensuring that the appropriate controls are put in place to maintain the quality of services and ensure transformation projects are successfully transitioned into "Business As Usual" once completed
- Work in partnership with colleagues across the Trust to drive the achievement of the Trust's corporate goals and business plan, including the achievement of all the relevant performance standards incorporating quality, safety, contractual, financial and people
- Act as an ambassador for the Trust, ensuring the positive development of the Trust brand, championing the Trust's values

MAIN DUTIES AND RESPONSIBILITIES

- Matrix management of technical resources and project stakeholders.
- Reporting/communicating progress to the relevant Project Board / external and internal governing bodies and other stakeholders.
- Liaising with the Systems Team leads to schedule projects.
- Liaising with operational teams and corporate functions
- Monitoring the transformation project and managing risks and issues effectively on a daily basis.
- Ensure effective project change management.
- Manage business change
- Manage several transformation projects to successful implementation in parallel with each other
- Ensure adherence to Trust policies and processes for the management of transformation projects
- Manage a constant stream of conflicting priorities, utilising exceptional organisation or communication skills, ensuring that

Management/

Leadership

	NH3 Foundation trust
	complex technical information can be explained in non-technical / business terms.
	 Deputise for the Senior Systems Manager as required
	Build, motivate and inspire a sense of ownership for transformation
	projects within the team
Human	Establish and maintain strong staff commitment within the
Resources	transformation project lifecycle to deliver and improve services.
	 Ensure that all staff receive appropriate education or training opportunities which supports the workforce strategy and therefore,
	the strategic aims of the Trust
	Service Delivery and Improvement
	 Document and manage user requirements according to the stated
	outcomes of the project.
	Understand how existing systems support current business
	processes and redesign them accordingly.
	Build effective relationships with both business sponsors, talk haldens and district around its and a start a bath around a start and a start and a start a start and a start a start and a start a
	stakeholders and digital suppliers in order to both support and
	challenge 'wants and needs' and negotiate on fundamental issues of design.
	 Contribute to the development of improved digital project disciplines
	through working with digital colleagues, third party providers and key
	stakeholders. Specifically design improved analysis and
	requirements management processes.
	Provide business analysis support throughout the lifecycle covering
	requirements analysis, functional design, user testing and supporting
	business change.
	Specifically gather user requirements through initiation of 1-2-1
	stakeholder sessions or facilitated workshops. Support the project by
Performance	modelling functional and data requirements using structured analysis
and Quality	techniques. Produce documentation that aids business
	comprehension and sign off whilst providing sufficient level of detail
	to engage with internal technical teams and third party digital
	suppliers
	Support the user acceptance testing (UAT) by assisting in the
	development of scenarios, test runs and test scripts. Help to
	determine expected results and verify actual results.
	Provide guidance to the impacted areas of the business in how to
	best manage the transition and on-going operation of new systems
	and processes.
	 When required, undertake third party software package evaluation using formal evaluation techniques.
	 Develop a network of relationships with key people and user groups
	across the Trust. In doing so, build increased knowledge of the Trust
	operations and how technology interacts.
	Specifically work with designated stakeholders to analyse, research
	and document requirements.
	Present potentially highly complex or sensitive information in an understandable format to a broad group of individuals and
	understandable format to a broad group of individuals and

stakeholders.

- Through facilitation, formulate and agree with stakeholders a
 definitive statement of requirements, using own knowledge, skills
 and expertise to positively influence others in reaching agreement as
 appropriate.
- Maintain effective communications with stakeholders throughout the transformation project in assessing agreed changes to scope and impacts to working practices.
- Develop and deliver presentations to senior stakeholder project boards and steering groups as required.
- Proactively monitor and develop timely and accurate status reports (written and verbal) for Senior Programme Manager using Trust proved project templates
- Act as an effective translator between the user community and technical community including third party digital suppliers and in doing so build credibility, rapport and respect in the eyes of these communities.
- Communicate complex technical issues to non-technical staff at all levels in a manner that enables understanding.
- For small projects undertake detailed planning, as appropriate covering all test phases from analysis to post Go-Live support.
 Ensure sponsors and stakeholders are engaged fully in the delivery
 of the stated outcomes.
- Provide detailed timeline and work estimates for the Senior Systems Manager to assess overall delivery timescales.
- Ensure the efficient organisation of specific project teams making best use of capacity to deliver activity and with cost effective utilisation of staff and non-pay resources
- Remain updated with all Trust Policies and working practices.

Risk Management and Governance

- Lead a culture within specific project team that ensures that all technical and operational employees comply with Trust policies and guidelines
- Support the Senior Systems Manager and other team leads in the delivery of the governance plan for the department
- Work collaboratively with colleagues to ensure that effective governance arrangements and performance management systems are in place for all projects
- Work collaboratively with colleagues to ensure that all risks are identified, monitored, escalated and that mitigation arrangements are in place. Where appropriate, included on the organisational risk register and are progressed appropriately to reduce the risk profile
- Work collaboratively with colleagues to address complaints and incidents appropriately, lead the learning from such events to ensure that learning is achieved across the department

Corporate

 With other leaders across the Trust, provide public interest entrepreneurial leadership of the trust, within a framework of prudent and effective controls which enable risk to be assessed and managed

JOB DESCRIPTION AGREEMENT

This job description is intended as a guide to the main duties of the post and is not intended to be a prescriptive document. Duties and base of work may change to meet the needs of the service or because of the introduction of new technology. This job description may be reviewed from time to time and changed, after consultation with the postholder..

Statement on Employment F	<u>Policies</u>			
•	of all employees to co-operate in the implementation of Employment is drawn to the following individual employee responsibilities:-			
Health and Safety	Under the Health & Safety at Work Act 1974 it is the responsibility of			
Ticaliti and Carety	individual employees at every level to take care of their own health			
	and safety at work and that of others who may be affected by their			
	acts at work, and to co-operate with management in complying with			
	health and safety obligations, particularly by reporting promptly any			
Equal Opportunities	defects, risks or potential hazards.			
Equal Opportunities	ELFT is committed to equality of opportunity for all employees, job applicants and service users. We are committed to ensuring that no			
	one will be discriminated against on the grounds of race, colour,			
	creed, ethnic or national origin, disability, religion, age, sex, sexual			
	orientation or marital status. The Trust commits itself to promote			
	equal opportunities and value diversity and will keep under review its			
	policies, procedures and practices to ensure that all employees, users and providers of its services are treated according to their			
	needs.			
	noodo.			
	For management posts, to ensure that within their service area fair			
	employment practice and equality of opportunity are delivered.			
Dealing With Harassment/	The Trust believes employees have the right to be treated with			
Bullying In The Workplace	respect and to work in a harmonious and supportive working environment free from any form of harassment and / or bullying.			
	on any form of hardooms and of builting.			
	The Trust has taken positive steps to ensure that bullying and			
	harassment does not occur in the workplace and that procedures			
	exist to resolve complaints as well as to provide support to staff. It is			
	your responsibility as an employee to abide by and support these			
	steps so all employees can work in a harmonious, friendly and supportive working environment free of any harassment or			
	intimidation based on individual differences.			
	Disciplinary action will be taken against any member of staff found to			
No Constitute	be transgressing the Dignity at Work Policy.			
No Smoking	To refrain from smoking in any of the organisations premises not designated as a smoking area. 'East London Foundation Trust is a			
	Smokefree Trust – this means that staff must be smokefree when on			
	duty or otherwise in uniform, wearing a badge or identifiable as ELFT			
	staff or undertaking trust business.'			
Alcohol	To recognise that even small amounts of alcohol can impair work			
	performance and affect ones ability to deal with patients and the			
	public in a proper and acceptable manner. Consumption of alcohol during work hours in not permitted.			
Confidentiality	As an employee of the Trust the post-holder may have access to			
- 15 All Co	The air employee of the fract the poor holder may have decode to			

the confidentiality of information relating to patients/clients and staff and under no circumstances should they disclose this information to an unauthorised person within or outside the Trust. The post-holder must ensure compliance with the requirements of the Data Protection Act 1998. Caldicott requirements and the Trust's Information and IMAT Secunity Policy. To safeguard at all times, the confidentiality of information relating to patients/clients and staff. washed before and after following all patient contact. Alcohol hand rub before and after patient contact may be used instead of hand
washing in some clinical situations.
Staff members have a duty to attend infection control training provided for them by the Trust as set in the infection control policy. Staff members who develop an infection that may be transmissible to

patients have a duty to contact Occupational Health.

PERSON SPECIFICATION

JOB TITLE:	SENIOR TRANSFORMATION AND DEPLOYMENT SYSTEMS ADMINISTRATION SPECIALIST	
BAND:	7	
DEPARTMENT:	SYSTEMS & DEVELOPMENT	
DIRECTORATE:	DIGITAL	
REPORTING TO:	SENIOR SYSTEMS MANAGER	
ACCOUNTABLE TO:	ASSOCIATE DIRECTOR – DIGITAL OPERATIONS	

ATTRIBUTES	CRITERIA	ESSENTIAL/ DESIRABLE	SELECTON METHOD (S/I/T)
	 Relevant Digital Degree or equivalent knowledge and relevant experience in specialty Recognised professional project 	E E	S/I
Education/ Qualification/	management qualification e.g., PRINCE 2 or Managing Successful Programs (MSP) or has equitable work-based experience	1	S/I
