

JOB DESCRIPTION

JOB TITLE:	SENIOR SERVERS & STORAGE SPECIALIST
BAND:	7
DEPARTMENT:	INFRASTRUCTURE & UNIFIED COMMUNICATIONS
DIRECTORATE:	DIGITAL
REPORTING TO:	SERVERS & STORAGE MANAGER
ACCOUNTABLE TO:	ASSOCIATE DIRECTOR- DIGITAL OPERATIONS

JOB SUMMARY

The Senior Servers & Storage specialist is a key member of the Servers & Storage team and will act as a lead within the team for Servers & Storage management or support.

The post holder is highly technical and provides design, support or advice to the Servers and Storage manager and team. The post holder is expected to be the knowledge repository or "go-to-person" for support, maintenance, installations or configuration, and the relevant Servers & Storage management tools or technologies.

The post is a lead technical role in a team of specialist Servers & Storage staff, the role includes customer care, vendor or relationship management, operations and Communications co-ordination. For all of these functions, the post holder is expected to understand, meet or exceed their customers' requirements and have the ability to explain complex Servers & Storage related issues to non IT staff.

The post holder is a source of knowledge and advice for project teams. This includes providing expertise on licensing, ongoing support, resource projections or costs, timelines and advising on business case development. The post holder will take a lead role in specialist projects such as infrastructure upgrades that impact across clinical and non-clinical areas, this includes downtime to be agreed with multiple stakeholders. The Senior Servers & Storage specialist will support the programme teams in the planning of projects and liaise or work alongside internal stakeholders and other technical experts to do so.

The post holder will deputise for the Servers and Storage Manager as required

KEY RESPONSIBILITIES

- Installation and configuration of servers, storage and associated devices
- Resolving complex software, hardware and technical issues or problems quickly and efficiently to meet SLAs
- Provide expert support or guidance relating to technical service requests, problems or issues by acting as a point of escalation in the department for both internal and external support queries
- Managing supplier relationships to ensure that the Trust optimises support and value for money.
- Maintain up-to-date SAN, VM's, and associated Infrastructure configurations or patching levels.
- Monitor the performance of the server & storage Infrastructure, scrutinising reports for emerging trends
- Analyse and interpret emerging highly complex problems, escalating and recommending corrective action
- Lead on the delivery of day to day maintenance activities including pro-active

- maintenance to ensure high availability of systems
- Rigorous documentation, and organisation of server & storage assets to ensure that service levels are optimised

MAIN DUTIES AND RESPONSIBILITIES

<p>Management/ Leadership</p>	<ul style="list-style-type: none"> • Provide visible operational leadership and promote continual improvement in quality, performance and delivery of Trust objectives • Lead, mentor and motivate staff within Servers & Storage team to deliver and improve services • Maintain a working knowledge of systems in use within the Trust, provide guidance to other technical staff as required and lead in the resolution of complex issues or solutions design • Develop the business and planning processes throughout department to deliver services to required standards and within the available resource base • Responsible for managing aspects of service delivery within the Servers & Storage team to agreed quality standards and within the resource or income base available. • Develop processes in collaboration with the Servers & Storage manager to jointly manage the business, delivery and development of services • Lead on the development, implementation, establishment and review of performance management systems within the Servers & Storage team, it is critical that this is done collaboratively with other leads within the infrastructure & unified communications service and across the Digital department. • Prioritise workload for the Servers & Storage team as required to meet business needs and customer requirements • Responsibility for the team rota including early or late shift covers and out of hours upgrades or moves • Responsible for the development of specialist training materials and documentation for the training of own team members and other members of the Digital Department as appropriate, for example Digital Service desk staff. • Provide support for the induction of new starters to the team • Deputise for the Servers & Storage manager as required
<p>Human Resources</p>	<ul style="list-style-type: none"> • Work collaboratively with the Servers & Storage manager and the Digital leadership team to ensure effective workforce planning that meets the needs of both current and future service developments. • Ensure that all staff receive appropriate education or training opportunities which supports the workforce strategy and strategic aims of the Trust • Recruitment and selection of new Server & Storage staff in collaboration with Servers & Storage Manager • Develop & coach less experienced members of the team when required

	<ul style="list-style-type: none"> • Provide support for the induction of new starters to the team
<p>Performance and Quality</p>	<p>Service Delivery and Improvement</p> <ul style="list-style-type: none"> • Ensure the efficient organisation of the services within the Servers & Storage team, making best use of capacity to deliver activity within the terms of Service Level Agreements (SLAs) and with cost effective utilisation of staff and non-pay resources • Ensure that service delivery standards are achieved • Deal with a range of varied and complex calls. Able to translate and explain complex situations in simple terms to all levels of staff. • Escalate to Line Manager any service impacting or critical issues, give clear updates of progress to resolution for staff at all levels • Log faults with 3rd party vendors as required, ensuring that the sufficient technical information is provided for each call logged • Ensure regular communication is maintained with external vendors and technical staff, ensuring complex issues are resolved • Work collaboratively with the Servers & Storage manager, the Digital Leadership team or other colleagues to ensure that service delivery and improvement plans are developed, implemented and reviewed • Utilise expert technical knowledge to manage and resolve issues or developments associated with Microsoft Hyper-V technologies, storage area networks, physical Servers, messaging & email, Microsoft system centre, VMWare, load balancers and Microsoft Windows Server operating systems. • Utilise expert technical knowledge to suggest and implement improvements to the Trust server & storage infrastructure • Ensure that the overall server & storage landscape is proactively monitored and appropriate alerting mechanisms are in-place and fully functional. • Supporting all Trust Sites you will be required to manage the server & storage infrastructure across multiple platforms • Ensure systems availability targets are maintained and unplanned downtime is minimised • Exercise expert professional judgment when dealing with highly complex technical issues. • Diagnoses of technical issues using knowledge and assimilated knowledge from a variety of other sources including third party support organisations, resulting in the swiftest resolutions to issues or problems and the most beneficial deployment of technologies • Utilise technical and physical skills required in order to setup, configure install or move servers & storage equipment. • Monitor outstanding incidents and service requests against Service Level Agreements (SLAs), prioritising workload effectively • Correctly record and update asset information • Liaise with external companies providing 3rd party support.

	<ul style="list-style-type: none"> Propose changes to and implement new procedures when introduced Risk Management and Governance Support a culture within the team that ensures that all technical and operational employees comply with Trust policies and guidelines Support the Servers and Storage manager and other team leads in the delivery of the governance plan for the department Work collaboratively with colleagues to ensure that effective governance arrangements and performance management systems are in place Work collaboratively with colleagues to ensure that all risks are identified and included as appropriate on the organisational risk register and are progressed appropriately to reduce the risk profile Work collaboratively with colleagues to address complaints and incidents appropriately – lead the learning from such events to ensure that learning is achieved across the department <p>Corporate</p> <ul style="list-style-type: none"> With other leaders across the Trust, provide public interest entrepreneurial leadership of the trust, within a framework of prudent and effective controls which enable risk to be assessed and managed Use specialist knowledge and experience to ensure that decisions taken are in the Trust's best interests Work with colleagues to facilitate corporate and service line performance through realistic, cross referenced and measurable objectives Put the interests of the Trust before any interest to a specific area of responsibility, and to participate fully in the department's collective decision-making as a team member rather than as a functional or professional advocate Hold a 'corporate' leadership role for delivery of cross cutting agendas that defines ways of working between directorates and shapes individual and joint roles across the organisation Work in partnership with colleagues across the Trust to drive the achievement of the Trust's corporate goals and business plan, including the achievement of all the relevant performance standards incorporating quality, safety, contractual, financial and people Act as an ambassador for the Trust, ensuring the positive development of the Trust brand, championing the Trust's values
<p>Financial and Physical Resources</p>	<ul style="list-style-type: none"> Ensure that budgets are managed in accordance with the Trust's Standing Financial Instructions, working collaboratively with the Servers & Storage manager and Finance lead, taking the necessary actions to prevent or address variance in performance, and to incorporate recommendations of internal and external audit Ensure the department meets the required performance

	<p>standards</p> <ul style="list-style-type: none"> • Share and communicate performance indicators and level of performance throughout the department, taking action where required to address variance from the standards or milestones • Ensure that unplanned variation in service delivery (activity, income, expenditure, capacity, performance) is identified and appropriate, timely action taken • Work collaboratively with the Servers & Storage Manager to lead the servers & storage team in the development of cost improvement plans and their implementation as part of financial recovery processes • Develop capital and/or revenue business cases for submission to the Infrastructure & Unified Communications Lead for the relevant committees • Ensure that financial controls are established and maintained within the servers & storage team
<p>Personal Skills and Qualities</p>	<ul style="list-style-type: none"> • Personal presence and positive representative for the trust/department. • Ability to give clear, effective and customer sensitive advice. • Ability to communicate complex technical issues to non-IT staff. • Enthusiasm for working collaboratively with other leads, business owners and other technical experts. • A willingness to maintain and acquire new skills in the area of servers & storage management or support. • Ability to develop effective working relationships with peers and management across the organisation

JOB DESCRIPTION AGREEMENT

This job description is intended as a guide to the main duties of the post and is not intended to be a prescriptive document. Duties and base of work may change to meet the needs of the service or because of the introduction of new technology. This job description may be reviewed from time to time and changed, after consultation with the postholder..

Statement on Employment Policies

In addition to the requirement of all employees to co-operate in the implementation of Employment related policies, your attention is drawn to the following individual employee responsibilities:-

<p>Health and Safety</p>	<p>Under the Health & Safety at Work Act 1974 it is the responsibility of individual employees at every level to take care of their own health and safety at work and that of others who may be affected by their acts at work, and to co-operate with management in complying with health and safety obligations, particularly by reporting promptly any defects, risks or potential hazards.</p>
<p>Equal Opportunities</p>	<p>ELFT is committed to equality of opportunity for all employees, job applicants and service users. We are committed to ensuring that no one will be discriminated against on the grounds of race, colour, creed, ethnic or national origin, disability, religion, age, sex, sexual orientation or marital status. The Trust commits itself to promote equal opportunities and value diversity and will keep under review its</p>

We care

We respect

We are inclusive

	<p>policies, procedures and practices to ensure that all employees, users and providers of its services are treated according to their needs.</p> <p>For management posts, to ensure that within their service area fair employment practice and equality of opportunity are delivered.</p>
Dealing With Harassment/ Bullying In The Workplace	<p>The Trust believes employees have the right to be treated with respect and to work in a harmonious and supportive working environment free from any form of harassment and / or bullying.</p> <p>The Trust has taken positive steps to ensure that bullying and harassment does not occur in the workplace and that procedures exist to resolve complaints as well as to provide support to staff. It is your responsibility as an employee to abide by and support these steps so all employees can work in a harmonious, friendly and supportive working environment free of any harassment or intimidation based on individual differences.</p> <p>Disciplinary action will be taken against any member of staff found to be transgressing the Dignity at Work Policy.</p>
No Smoking	<p>To refrain from smoking in any of the organisations premises not designated as a smoking area. 'East London Foundation Trust is a Smokefree Trust – this means that staff must be smokefree when on duty or otherwise in uniform, wearing a badge or identifiable as ELFT staff or undertaking trust business.'</p>
Alcohol	<p>To recognise that even small amounts of alcohol can impair work performance and affect ones ability to deal with patients and the public in a proper and acceptable manner. Consumption of alcohol during work hours in not permitted.</p>
Confidentiality	<p>As an employee of the Trust the post-holder may have access to confidential information. The postholder must safeguard at all times, the confidentiality of information relating to patients/clients and staff and under no circumstances should they disclose this information to an unauthorised person within or outside the Trust. The post-holder must ensure compliance with the requirements of the Data Protection Act 1998, Caldicott requirements and the Trust's Information and IM&T Security Policy.</p> <p>To safeguard at all times, the confidentiality of information relating to patients/clients and staff.</p>
General Data Protection Regulation (GDPR)	<p>To maintain the confidentiality of all personal data processed by the organisation in line with the provisions of the GDPR.</p> <p>As part of your employment with East London Foundation Trust, we will need to maintain your personal information in relation to work on your personal file. You have a right to request access to your personal file via the People & Culture Department.</p>
Safeguarding	<p>All employees must carry out their responsibilities in such a way as to minimise risk of harm to children, young people and adults and to safeguard and promote their welfare in accordance with current legislation, statutory guidance and Trust policies and procedures. Employees should undertake safeguarding training and receive safeguarding supervision appropriate to their role.</p>
Service User and Carer Involvement	<p>ELFT is committed to developing effective user and carer involvement at all stages in the delivery of care. All employees are required to make positive efforts to support and promote successful user and carer participation as part of their day to day work.</p>
Personal Development	<p>Each employee's development will be assessed using the Trust's</p>

	Personal Development Review (PDR) process. You will have the opportunity to discuss your development needs with your Manager on an annual basis, with regular reviews.
Quality Improvement	The Trust encourages staff at all levels to engage in the Trust's approach to quality through quality improvement projects and quality assurance.
Professional Standards	To maintain standards as set by professional regulatory bodies as appropriate.
Conflict of Interests	You are not precluded from accepting employment outside your position with the Trust. However such other employment must not in any way hinder or conflict with the interests of your work for the Trust and must be with the knowledge of your line manager.
Risk Management	Risk Management involves the culture, processes and structures that are directed towards the effective management of potential opportunities and adverse effects. Every employee must co-operate with the Trust to enable all statutory duties to be applied and work to standards set out in the Risk Management Strategy.
Personal and Professional Development/Investors in People	The Trust is accredited as an Investor in People employer and is consequently committed to developing its staff. You will have access to appropriate development opportunities from the Trust's training programme as identified within your knowledge and skills appraisal/personal development plan.
Infection Control	<p>Infection Control is everyone's responsibility. All staff, both clinical and non-clinical, are required to adhere to the Trusts' Infection Prevention and Control Policies and make every effort to maintain high standards of infection control at all times thereby reducing the burden of all Healthcare Associated Infections including MRSA. In particular, all staff have the following key responsibilities: Staff must observe stringent hand hygiene. Alcohol rub should be used on entry to and exit from all clinical areas. Hands should be washed before and after following all patient contact. Alcohol hand rub before and after patient contact may be used instead of hand washing in some clinical situations.</p> <p>Staff members have a duty to attend infection control training provided for them by the Trust as set in the infection control policy. Staff members who develop an infection that may be transmissible to patients have a duty to contact Occupational Health.</p>
