**Request:** In part 1, if these numbers are only available for patients who have not been identified as having learning disabilities, that is acceptable. The request is based on [this announcement](#) by the Department of Health and Social Care, and the 'Learning from Deaths Dashboard' template announced by NHS England.

In part 4, I recognise that it is not possible to determine the cause of death of the patient. That is not what I am requesting.

For all parts of this request, if the data to the end of 2022 is not available, then please include as much of the year as possible.

If the trust experienced any merger in the timeframes required, please include if possible the results for the separate defunct trusts before the merger, and then the results for the new trust.

**Question 1:** The total number of deaths considered more likely than not to have occurred due to problems in care in the trust for each quarter for which records are available

**Answer:** The Trust has reviewed question 1 of your request for information under the Freedom of Information Act (FOI) 2000.

Section 1(1) of the Freedom of Information Act 2000 states:

Any person making a request for information to a public authority is entitled—  
(a) to be informed in writing by the public authority whether it holds information of the description specified in the request, and  
(b) if that is the case, to have that information communicated to them.

East London NHS Foundation Trust is primarily a Mental Health and Community Health Trust and as such does not provide the services described in this request. We are therefore unable to provide a response. We believe your request is for an Acute Trust.

**Question 2:** The highest number of days of delayed discharge in your trust in of 2018, 2019, 2020, 2021 and 2022

**Magnetic Resonance Imaging test (MRI)**
