

## MODEL 1 – ‘Rotation’ Model

IOW  
NHS

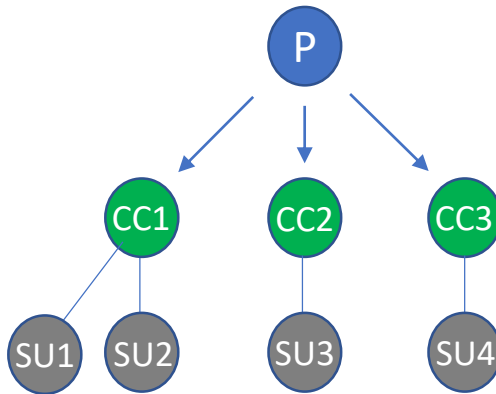

Avon &  
Wiltshire NHS

Solent  
NHS

Essex Partnership  
University NHS

Oxleas  
NHS

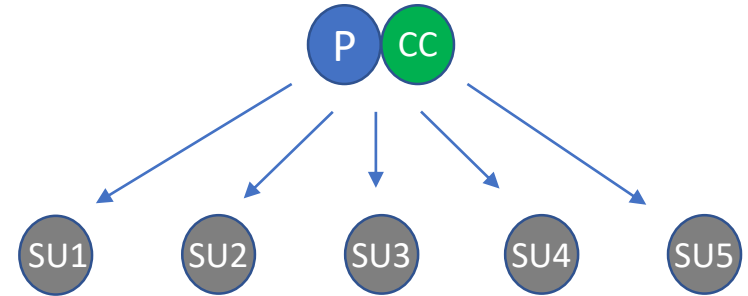

FULL TIME police officer supports multiple care co-ordinators, (perhaps across multiple clinical locations). Many team start with this model

## MODEL 2 – ‘Reallocation’ Model

Camden &  
Islington NHS

FULL TIME police officer works with dedicated care coordinator. They manage their own HIU caseload, taking the most intensive patients from other care coordinators.

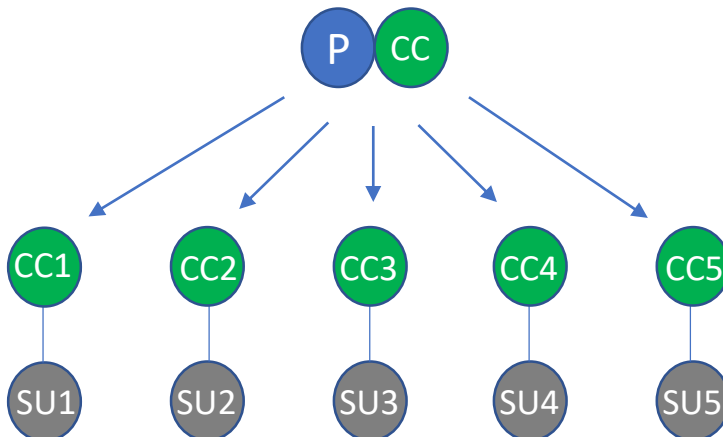

## MODEL 3 – ‘Support’ Model

Derbyshire  
Healthcare NHS

Leicestershire  
Partnership NHS

FULL TIME police officer works with dedicated care coordinator. They support care coordinators with their own HIU clients.

## MODEL 4 – ‘Community’ Model

HOLLAND

West Midlands Police  
(Launching 2019)

USA

Police Officer from a neighbourhood team is trained and paired up with a local MH clinician to support one service user living within the neighbourhood. This work is adopted and protected into his/her policing responsibilities for x hours a week. Best model for a rural or widely dispersed high intensity demography.
