Other Conference Topics:

Civility in the Workplace	Respectful Resolution
Feeling Safe When Raising a Concern	Equality, Diversity and Inclusion Issues

Send a representative from your service/team to report back.

The Lucy Letby trial brought into sharp focus the need for health and care staff to be able to safely raise concerns, regardless of banding or role. Whether the concern is about poor or unsafe practice, or speaking up about anything that gets in the way of doing a great job. The importance of speaking up, being listened to and receiving information on action taken and/or outcomes as a result is vital.

So, join us on 20 October to talk and learn. Book your place now.
We look forward to seeing you.
