**Request:** I am undertaking a project looking at health inequalities in patients with Waldenström macroglobulinaemia with a company called Health Equity AI. As part of this research, we are looking to collect data on which trusts/ICBs employ haematology CNS' that are involved in the treatment and care of patients with WM.

**Please can you respond to this FOI request:**

**Do you employ a haematology CNS that is involved in the treatment of patients with Waldenström macroglobulinaemia?**

**Answer:** No, the Trust is primarily a Mental Health and Community Health Trust and as such does not employ a haematology CNS nor does it provide treatment for Waldenström Macroglobulinaemia.

We promise to work together creatively to: learn 'what matters' to everyone, achieve a better quality of life and continuously improve our services.
